

# **ROVER'S GUIDE TO A HAPPY LIFE AT TUSCANY AT TAMPA PALMS**

By: Debi Hudrlik, Vice President

Here's the latest community scoop  
The topic of which is Rover's poop  
When duty calls and he must release  
Please make sure he's on his leash  
When out and about walking the dog  
Please make sure to pick up his log  
For nothing more can crush your style  
Than to go for a stroll and step in a pile  
So when you take Rover for his walk  
Carry a bag so the neighbor's won't talk  
And if you follow all of these rules  
There'll be no more complaints about Rover's stools

If Rover has the urge to roam  
Secure him in the yard at home  
If that doesn't work and he starts to bark  
Take him down to a community park  
But be sure to bring his favorite toy  
So he doesn't go after the neighborhood boy  
And secure his leash before it's too late  
So he isn't the community's gator bait  
Make sure he wears his I.D. tag  
So his swift return does not lag  
And also make sure he has his shots  
To alleviate any endangered tots

All of the above are enforced by the County  
And guaranteed, you'll receive no bounty  
You're more than likely to receive a fine  
Which falls way short of simply divine  
So when your joyful walk is over  
It's time to go home and reward Rover  
To your best friend you must be true  
But please don't make your neighbors blue  
So don't be foolish, lazy or neglectful  
Just follow these guidelines and be respectful  
We all live at Tuscany for darn good reasons  
So let's keep it tidy through all the seasons
